We thank our speakers for their insightful presentations, our participants for engaging discussions, and our team for their efforts. We look forward to seeing you at next year's LCA Community Event!

TESTIMONIALS:

I really enjoyed yesterday's event.

It was great to gain different perspectives on how things are being approached in the Life Cycle Assessment (LCA) and Environmental Product Declarations (EPDs) fields.

It was very interesting to hear insights on how to prepare for upcoming regulations.

LOKESH ANAPARTHI

Global Sustainability Manager (LCA/EPD) at Wavin (Orbia)

In a continuously evolving landscape regarding sustainability, it was insightful and inspiring to attend an event like this. Being prepared and making the right decisions at the right time is a challenge for companies. It is our role to be informed and to inform the different entities within our own organisation.

In this regard, the LCA Community event does support this goal. Many thanks to Enperas and the team for accomplishing this and to invite top speakers!

RUBEN SNURAWA

Quality & ESG Manager at Aliplast
